\$15.95@16.15; August, \$15.921@

By International News Service.

Nobody paid much attention to specific stocks until the afternoon, when it became evident that the decline had been completely checked and the market turned hack toward higher levels. Although copper metal sold at 16; cents a pound, for the first time since the great panic, the first time since the great panic, the copper shares did not show as much vitality as other stocks. They barely held their own, and leading operators were expressions that new high records would be made within a few days.

These records were not talked of by the small traders, but by the big operators. They said they expected to see the market advance throughout the summer, with frequent breaks like that of Thursday to scare out little traders.

Easy money, record large tonnage for the steel mills, a strong copper metal market, certainty of big crops, speedy settlement of the dispute between the miners and the anthracite operators and assurances of early peace in Mexico were other reasons given for the recovery of the market.

DUN'S REVIEW OF TRADE. Business Favorable Apart From Backwardness of Season. NEW YORK, May 17.—R. G. Dun & lo.'s Review of Trade will say tomor

NEW YORK, May 17.—R. G. Dun & Co.'s Review of Trade will say tomorrow:

Apart from the backwardness of the scason, the business situation on the whole maintains its recent favorable aspect. The most significant movements in the Iron and steel trade, in which the west reports are of an expanding demand with premiums being offered in some instances for prompt delivery. So far as this industry is concerned there has been a complete breaking away from the hesitation that has hitherto prevailed and in all instances now point to a period of activity.

There is a broadening demand from the railroads with rail contracts still an important factor, and car builders are booked well into the fail. The larger steel plants are now operating close to capacity, heavy specifications having come forward on bars, plates, shapes, sheets and tin plates while the output of iron is on a larger scale than ever before.

ever before.

Deliveries of steel materials are not so prompt as in recent weeks, and billets have advanced 50 cents a ton, with bessemer billets commanding a slight premium over open hearths. Pipe and tube shipments this month are exceeding the movement in April and makers of wrought pipe have enough orders ahead to carry beyond the first half of the year.

to carry beyond the hist day.

Year.

The backward weather conditions coupled with the strong advances which are demanded by shoe manufactures, have restricted business in footwear.

In leather, pronounced strength continues to rule. Sharp advances have again occurred in about all varieties of hides, especially packer stock.

BRADSTREET'S REPORT.

Spring Trade Injured by the Recent Cold YORK, May 17.-Bradstreet's

Chicago.

Chicago.**

Chicago.**

CHICAGO. May 17.—Cattle—Receipts. 1500; market, steady; beeves, \$6.00@9.25; Texas steers, \$5.90@7.75; western steers, \$4.10@7.85; stockers and feeders, \$4.30@7.00; cows and helfers, \$3.00@8.00; calves, \$5.55@5.25.

Hogs—Receipts, 16,000; market, slow; generally steady; light, \$7.40@7.923; mixed, \$7.50@8.00; heavy, \$7.50@8.00; calves, \$1.50@8.00; calves, \$1.50@6.00; market, stow; generally steady; light, \$7.40@7.923; mixed, \$7.50@8.00; market, stow; ground to be recovered.

On the other hand, orders for fall account are of a reassuring character. In the dry goods line recent and present quiet would in all probability be more sharply feit were it not that deliveries from the mills are not up to the handle, which fact keeps stocks in second hands for the reasonable activity in retail lines, which branch of distribution should now be in full swing.

This situation has in turn been reflected in decreased buying from whole-sale ealers and jobbers, and there has been little or no reorder business. At the same time country trade is quiet, for while farmers have not been lind a mood to make even ordinary purchases.

It is felt, however, that retail dealers' stocks are not burdensome and that warm, settled weather will produce better results and enable some of the lost ground to be recovered.

On the other hand, orders for fall account are of a reassuring character. In the dry goods line recent and present quiet would in all probability be more sharply felt were it not that deliveries from the mills are not up to the handle, which fact keeps stocks in second hands for the receipts and the country trade is

mixed, \$7.50@8.00; heavy, \$7.50@8.05; rough, \$7.50@8.00.

WHEAT IS STILL OFF

Signs of Revival in the Chicago Pit After Prices Go to the Bottom.

CHICAGO, May 17.—Strain in the wheat trade, although unmistakably evident today, diminished when the fact became clear that no persons or firm would be obliged to suspend. Signs of a revival of flour business and of demand for cash wheat cut a figure in partly restoring confidence, but not until the market had fallen more than 2 cents below last night's level.

The close was irregular, ranging from \$\tilde{w}\) for net decline to a half advance. Corn finished \$\tilde{w}\) ic off to 1ic up; oats unchanged to \$\tilde{e}\) do down, and provisions varying from 10c loss to 17 ic gain.

A majority of dealers this evening were inclined to believe that liquidating sales of unusual magnitude were at an end for the present unless something radically different should develop as to the crop outlook. Advices today especially from the west and mainly from elsewhere continued to be of the bearish sort. Experts in Ohlo, nevertheless, sent word of more forbidding conditions than the original showing which was made when tests were first possible to the effect of the winter killing.

The worst decline in wheat today seemed to result from the throwing overboard of weak holdings in the cases where calls for margins had met no response. But big decreases in stocks at Minneapolis and Duluth counted in favor of a rally, and so did the noteworthy stability of prices across the Atlantic July fluctuated from \$1.06\forall to \$1.09 and wound up at \$1.08\forall 0.08\forall just \$6\forall c under last night. Other options all showed even more power to recuperate.

RANGE OF THE LEADING FUTURES.

Cash quotations were as follows: Flour, weak: rye, No. 2, 99c; barley, feed or mixing. 80cm \$1.08; fair to choice malting, \$1.16@1.27; timothy seed, \$8.00@12.00; clover seed, \$14.00@30.00; mess pork, \$18.50@18.50%; land, in tierces, \$10.72%; short ribs, loose, \$10.58.

mess pork. \$18.509(1)8.5239; lard, in therees, \$10.725; short this, loose, \$10.58.

GRAIN STATISTICS.

Total clearances of wheat and flour were equal to \$22,000 hushels. Exports for the week, as shown by Bradstreets, were equal to \$20,000 bushels. Primary receipts were \$61,000 bushels, compared with \$43,000 bushels the corresponding day a year ago. Estimated receipts for tomorrow Wheat \$67 cars corn, 152 cars; oats, 184 cars; hogs, 10,000 head.

July corn varied from 73%; to 75%; but closed relatively firm in sympathy with wheat at 74%; a loss of 15% to net. Cash grades were in poor demand. No. 2 yellow was quoted at 75%; C. Outside limits touched by July oats was 48%; and 50%; with last sales \$60\$ off at 45%; Commission houses believed to represent the large packers withstood a flood of offerings in the provision pit. Transactions in lard particularly reached a remarkable total. At the end of the session prices averaged the same as lest night, except that pork for distant delivery had sagged 10c to 17%.

Boston Wool Market.

BOSTON. May 17.—The Commercial Bulletin will say of the wool market tomorrow:

Trading this week in the Boston wool market has been indifferent, except for the demand nearthe close for the low crossbreds by one of the larger buyers. Scattering of old certitory wools of almost all grades, as well as a fair demand for new territories, has been in evidence. Only a little trading has been done in fleeces at unchanged rates.

clothing purposes are held firm on moderate re-quest.

The shipments of wool from Boston from Janu-ary 1 to May 16. inclusive, were 104,483,523 pounds, against 28,525,725 pounds for the same period last paar. The receipts from January 1 to May 16. inclusive, were 104,523,269 pounds, against 85,401,038 pounds for the same period last year.

New York Produce.
